

## RENO QRP GROUP SLOW SPEED CW QRP NET REPORT

Hi all

Attached is the log of our last slow speed NET July 6, 2023

The NET was held from Hidden Valley the weather was sunny and hazy air calm getting hot. NET started on time at 10:00 am on 7.045 MHZ. The noise level at set up was S5.6 but settled down to S3 to 4 at time of the NET. SFI 154 A index 7 K index 3 Xray C2.4.

There was a total of 6 QNI today. Mike WA6ARA, Van W7IEX, Craig AE7I, Phil AB7WE at first and then Bob KA6NSN, and Joe KM6HJP checked in at last comments. Both Joe and Bob sent I/O.

This was Joe's first time to QNI he is on my list by request of Woody K1LB, Joe is taking a CW class I am glad that he checked in he had a good signal 579 from Doyle, CA.

Bob KA6NSN was late to check in so he sent I/O but then sent he could copy all.

I have not heard from Bob for the last three months due to conditions, glad we made contact today.

Mike was first to report from Ridgecrest, CA he had a good signal to me at 579 but I was low on his end. Mike gave a good report including the weather with a temp of 92 degrees F.

Van was next from home south Reno having a strong 599 + 10 over with his FT DX 3k at to watts into his butternut. Van also gave a weather report and RST for Mike.

Craig gave a very good report using his K2 into his STEPPIL YAGI 40 m dipole at 35 ft ½ way up his tower. Craig gave a weather report as it was warming up to 80 degrees F he reported from his home in West Reno.

Last was Phil from home in NW Reno using his End Fed invert "L" his rig is the ICOM 7300 at 10 watts Phil finished his report that included RST for Craig, Van, and Mike.

The NET was closed at 10:43 AM.

**The next NET will be July 20, 2023, starting at 10:00 AM**

Hope to hear you all again. 73/72 Ed/WD7Y

**RENO QRP GROUP SLOW SPEED CW QRP NET REPORT**

Hi all

Attached is the log of our last slow speed NET July 20, 2023

The NET was held form Hidden Valley the weather was sunny air calm getting hot.

NET started on time at 10:00 am on 7.045 MHZ. The noise level at set up was S2.5 SFI 189 A index 5 K index 1 Xray C1.3.

There was a total of 7 QNI today BOB KA6NSN, AJ6GC I/O Krystal, Paul N6ILJ, Phil AB7WE, Joe KM6HJP, Dave KI7SJE, Mitch KB6FPW.

Bob was first up he started off using his paddle but continued using the keyboard, Bob and Krystal had a signal of 599. Bob was using his FT 757 at powered at 10 watts. Bob was solid copy here my RST was 579 with some QRN.

Next was Paul from Redlands, CA we both had weak signals to each other, but Paul did a good job reporting. I don't know what he was using for a rig but I made out that he was using a loop.

Joe KM6HJP was next to report but when I called him he didn't answer, possibly he didn't copy Paul and maybe thought the NET was washed out.

At last call Dave from Walla Walla, WA checked in his signal was 569 and I had solid copy for him he was using his KX3 at 10 watts into a doublet up 30 ft.

Mitch made contact using his OMNI 7 at only 5 watts into his dipole up 50 ft, also he was using solar power. His QTH was Dinkey Creek, CA. According to QRZ his home is no San Jose. So for the first time checking into the NET he was operating in the field, and doing a great job.

The NET was closed at 10:44 AM.

**The next NET will be August 3, 2023, starting at 10:00 AM**

Hope to hear you all again. 73/72 Ed/WD7Y
