

RENO QRP GROUP SLOW SPEED CW QRP NET REPORT

Hi all;

The log of our last slow speed NET on January 1/11/24 is attached.

The NET was held from my home in Reno, NV. I needed to hold the NET from home as I had 8 inches of snow on the ground, it came down in about 3 hours last night. This morning I was out with my snow blower servicing three neighbors including myself just before the NET.

The NET started on time at 11:00 am on 7.045 MHZ. The noise level was S4 to 5 The SFI 186 A index 7 K index 2 Xray C2.6

There was 6 QNI today Mike WA6ARA I/O, Derek W7DLZ, Phil AB7WE, Rob KA6JLT, Craig AI7E, Bob KA6NSN.

First up was Derek from Lemmon Valley using his Yeasu FT DX 10 running 10 watts he was 579 to me. Derek reported having only 3 inches of snow and a temp of 28 degrees F.

Next up was Phil his signal to me was only 339 with QSB at that time I switched to my Doublet at 30 feet and his signal improved to about 569. Phil was using his IC 7300 at 10 watts into his end

fed inverted "L". He reported on the weather and gave Derek his RST of 559.

Rob from his home was 599 to me using his IC761 at 10 watts into his indoor antenna wire on the ceiling. Rob reported on the weather as being sunny and clear with temp of 28 F and humidity at 64 percent.

Next was Craig from his home in NW Reno he was using his K2 at 10 watts into is Dipole element on STEPIR YAGI up 72 feet. Craig went on to say he had 8 inches of snow on the ground with a temp of 23 F.

At last call Bob checked in with a very good signal of 599 from Quincy, CA using his Kenwood TS 652 OS into a long wire about 30 feet up. His weather was cold at 20 degrees F.

The NET was closed at 11:44 AM.

The next time I hold the NET from my home I will be using my doublet at 30 ft, we will see how strong Mike in Ridgecrest, CA and Roy in Walla Walla, WA can copy.

The next NET will be Jan. 25, 2024, starting at 11:00 AM

Hope to hear you all again. 73/72 Ed/WD7Y

RENO QRP GROUP SLOW SPEED CW QRP NET REPORT

Hi all;

The log of our last slow speed NET on January 1/25/24 is attached.

The NET was held from Hidden Valley Park in Reno, NV. Weather today was a fine day for the field.

The NET started on time at 11:00 am on 7.045 MHZ. The noise level was S4.5 The SFI 172 A index 10 K index 2 Xray C2.3

There was 7 QNI today woody K1LB, Bob KA6NSN, Mike WA6ARA, Joe KM6HJP, Krystal AJ6CG I/O, Rob KA6JLT I/O, Ray W7TAP.

First up was Woody in the field at Huffaker Trail Head a fine day for the field. Woody was using IC 7300 at ten watts into his EFHW antenna.

Next up Bob from Quinch, C A using his FT 747 at ten watts into his COBRA at 20 feet, Bob was solid at 599, he included the weather at his QTH.

Mike from Ridgecrest, CA has a strong signal at 599 solid copy. He was using his KX3 into his 80 MTR. Doublet Mike fed this antenna with a home brew Zmatch. Mike said the weather was 60 degrees F with a slight wind at 5 MPH.

Next was Joe from Doyle, CA he was using his IC 7300 at 10 watts into his inverted L at 40 ft. Joe was solid at 599 his weather with a temp of 40 F.

At last call Ray checked in he had a signal of 579 from his IC 7300 at 10 watts into his dipole. His QTH is Reno, NV, Ray did a good report, it was good to hear from Ray I am glad he is back checking in.

At last comments Mike gave S readings for all who QNI.

The NET was closed at 11:42 AM.

The next NET will be Feb. 8, 2024, starting at 11:00 AM

Hope to hear you all again. 73/72 Ed/WD7Y
