

RENO QRP GROUP SLOW SPEED CW QRP NET REPORT

Hi all;

The log of our last slow speed NET on April 4, 2024, is attached.

The NET was held from Hidden Valley Park in Reno, NV. Weather was cloudy cold and windy; I should have run the NET from home today.

The NET started on time at 11:00 am on 7.045 MHZ. The noise level was S3 to 3.5 The SFI 112 A index 7 K index 3 Xray B3.7

There were 9 QNI today Van W7IEX, Woody K1LB, Derek W7DLZ, Joe KM6HJP, Phil AB7WE, Roy W7HJL, Bob KA6NSN, Craig AE7I, and Don AA6W. Nine QNI is a new record.

First to report Van from home using his Yaesu FTDX3K at ten watts he gave the weather as cloudy with a temp of 45 degrees F.

Next was Woody from a field location on Longley Ln business area. Woody was going to operate at his Huffaker location, but the wind was too strong, so he quickly chose an alternate spot. Woody gave a good report. His reported included a message he had gotten over his Cell from Derek he had to QRT on Peavine Mt. because of high winds.

Joe followed with his report from Doyle, CA using his IC 7300 at ten watts we both had RST at 599.

Phil from NW Reno reported next using hi IC 7300 at ten watts. Phil reported that the weather was partly cloudy and windy with a temp of 48 degrees F. Phil also gave RST reports for Van and Woody both at 539 conditions were ruff today.

Roy from Walla Walla, WA was next he was using his Ten Tec Jupiter at 15 watts into a vertical his RST to me was 569, Roy said all signals had QSB. The weather at his QTH was cloudy with a temp of 45 F.

From Quincy, CA Bob reported in with his FT 747 at ten watts to his COBRA we both had a RST at 599. Bob reported the weather being cloudy and calm with a temp of 50 degrees F.

Craig was next using his ELECRAFT K2 at 10 watts into his Dipole up at only 30 ft today because of the high winds. His weather reported was partly cloudy with winds at 15 MPH. and a temp at 45 degrees F.

At last call Don AA6W in with his K2 to a vertical his location is near Gilroy, CA the QSB got his signal to a RST of 559.

The NET was closed at 1159 AM.

The next NET will be April 18, 2024, starting at 11:00 AM

Hope to hear you all again. 73/72 Ed/WD7Y

One last thing I got a e-mail from Woody that Derek had hurt his foot and was being treated at ROC. I was sorry to hear that and hope he has a fast recovery.

In the meantime, check out the Reno QRP WEB Page.

RENO QRP GROUP SLOW SPEED CW QRP NET REPORT

Hi all;

The log of our last slow speed NET on April 18, 2024, is attached.

The NET was held from Hidden Valley Park in Reno, NV. Weather was mild with sunny sky and a small breeze.

The NET started on time at 11:00 am on 7.045 MHZ. The noise level was S2.5 the SFI 217 A index 7 K index 1 Xray C3.5

There were 5 QNI today Woody K1LB, Van W7IEX, Mike WA6ARA I/O, bob KA6NSN, Roy W7HJL.

First up was Woody from his home in Reno using his Kenwood TS 890 power at 10 watts into his 5 bane HEX Beam. He reported that weather to be sunny with a temp of 62 F.

Van reported into the NET today from the field at Callahan Park just off Mt Rose highway, He was using his Argunut at 10 watts into his mobile whip, that setup was 599 to me. I am glad that Van is getting back to operating in the field.

Bob was next from his home in Quincy, CA his signal today was 589. Bob reported that I was QSB to him at 579. The weather was sunny and calm with a temp of 60 F.

Last today was Roy from Walla Walla, WA in his reported he gave all QNI RST with his K3 at 15 watts into his vertical. The weather there is sunny with a temp of 65 F. thanks for a good report Roy hope to hear you again next time.

The NET was closed at 1135 AM.

NOTE SUMMER STARTING TIME AT 10:00 AM

The next NET will be MAY 2, 2024, starting at 10:00 AM

THIS IS THE TIME OF YEAR TO GET IN THE FIELD.

Hope to hear you all again. 73/72 Ed/WD7Y

In the meantime, check out the Reno QRP WEB Page.
