

## RENO QRP GROUP SLOW SPEED CW QRP NET REPORT

Hi all;

The log of our last slow speed NET on May 2, 2024, is attached.

The NET was held from Hidden Valley Park in Reno, NV. Weather was on the cool side, at set up the air was calm and partly cloudy.

The NET started on time at 10:00 am on 7.045 MHZ. The noise level was S2.5 the SFI 135 A index 8 K index 3 Xray C2.0

There were 5 QNI today Mike WA6ARA, Roy W7HJL, Craig AE7I, Rob KA6JLT, at last call Michael WB6DJT.

First up was Mike from Ridgecrest, CA he reported that II had QSB and my RST was 559. Mike was using his KX3 at 10 watts into his 80 MTR Doublet. Mike included the weather with an nice temp od 77 F.

Next was Roy from Walla Walla, WA. he reported that all signals were weak with mine at RST 339 all others were NIL, QSB was also at work. Roy was using his trusty K3 at 15 watts into his vertical I had solid copy but RST was from 579 to 449.

It was nice to hear from Craig today he was in his back yard in the field using his K1 into ah end fed half wave the high of the wire was held up by a 7 Meter pole He was solid to me at 599. In his report he included the weather with high clouds with slight breeze.

Rob from his home in Reno using his IC 761 at ten watts into his inside random wire on the ceiling, Rob is always 599 + to me as his QTH is right down the hill from my location. Rob included the weather in his report.

At last call I heard Michael AB6DJI from Torrance, CA he was 579 but when I called him to report there was no answer.

The NET was closed at 10:00 AM.

**NOTE SUMMER STARTING TIME AT 10:00 AM**

**The next NET will be MAY16, 2024, starting at 10:00 AM**

**THIS IS THE TIME OF YEAR TO GET IN THE FIELD.**

Hope to hear you all again. 73/72 Ed/WD7Y

In the meantime, check out the Reno QRP WEB Page.

## **RENO QRP GROUP SLOW SPEED CW QRP NET REPORT**

Hi all;

The log of our last slow speed NET on May 16, 2024, is attached.

The NET was held from Hidden Valley Park in Reno, NV.

The weather was very nice for a day in the field sunny and calm with the temp beginning to climb.

The NET started on time at 10:00 am on 7.045 MHZ. The noise level was S2.5 the SFI 216 A index 10 K index 4 Xray C3.1

There were 6 QNI today Rob KA6JLT, Phil AB7WE, Woody K1LB, Joe KM6HJP, at last call Bob KA6NSN, and some one new Don AA6GA.

First up was Rob from his home in Reno using a rig with new software power at 8 watts. Rob had a strong signal at 599 with his indoor antenna end fed wire on the ceiling.

Next was Phil from his home in north west Reno his signal was 579 but he sent me only 539 and he had no copy on Rob. Phil uses the IC 7300 at 10 watts into his end fed inverted "L".

Woody was also home in Reno using his TS 890 S at 10 watts into his Hex Beam very strong to me at 599 +.

Joe from Doyle, CA had a solid signal at 589 he also uses the IC 7300 at 10 watts into his EFHW inverted "L" at 30 ft. He added a thank you to me for holding the NET.

At last call I was very happy from Bob in Quinch, CA His weather was sunny and calm with a temp of about 60 degrees F. He was using his FT 747 at ten watts into his COBRA antenna up 20 ft.

One more QNI was Don AA6GA. Don lives in Auburn, CA he also has a house in Reno. I was happy to hear from someone new I will send his information about the NET and the Reno QRP Group meetings.

The NET was closed at 10:49 AM.

**REMEMBER THE SUMMER STARTING IS 10:00 AM**

**The next NET will be MAY 30, 2024, starting at 10:00 AM**

**THIS IS THE TIME OF YEAR TO GET IN THE FIELD.**

Hope to hear you all again. 73/72 Ed/WD7Y

## RENO QRP GROUP SLOW SPEED CW QRP NET REPORT

Hi all;

The log of our last slow speed NET on May 30, 2024, is attached.

The NET was held from Hidden Valley Park in Reno, NV.

The weather was very nice for a day in the field sunny and calm with the temp beginning to climb.

The NET started on time at 10:00 am on 7.045 MHZ. The noise level was S3.0 the SFI 171 A index 6 K index 2 Xray C1.9

There were 6 QNI today Rob KA6JLT I/O, Woody K1LB, Dave KI7SJE, Joe KM6HJP, Bob KA6NSN, Craig AE7I.

First up was Woody He had a very strong signal using his IC 7300 at ten watts from his field location at Steamboat Hills Reno, NV. It was a nice day for the field. Woody was also working POTA from his location.

Next was Dave from Walla Walla WA Dave was in the field at a park near his home. Dave was using his KX3 at 10 watts into his AX1 Portable Vertical with a 40 M extender. He had some wind problems along with curious children. Today conditions were with deep QSB from his QTH. Thanks for your report Dave, I hope next time conditions will be better.

Joe from Doyle, CA had a signal of only 559 this time also with QSB, but I copied most all, of his report. Joe reported the weather was sunny temp of 64 degrees F and a wind speed of 10 MPH. Joe uses the IC 7300 at 10 watts into a EFHW inverted L his last comment was thanking me for hosting the NET.

Bob reported in using his Yaesu FT 747 at 10 watts he was good and strong at 599 from Quincy, CA. Bob reported the weather was clear and sunny with a temp at 60 F

At last call Craig checked in his signal was 599. He was using his new Elecraft KH1 at only 5 watts into his end fed half wave up 18 feet in his back yard. Craig was a little late QNI because he was still new at the controls of the KH1

The NET was closed at 10:35 AM.

**REMEMBER THE SUMMER STARTING IS 10:00 AM**

**The next NET will be JUNE 13, 2024, starting at 10:00 AM  
THIS IS THE TIME OF YEAR TO GET IN THE FIELD.**

Hope to hear you all again. 73/72 Ed/WD7Y

In the meantime, check out the Reno QRP WEB Page.
